PsycINFO

***Psychological Abstracts Information Services (PsycINFO)* is a family of interrelated information services that provides access to the world's literature in psychology and related behavioral and social sciences in a variety of ways. *PsycINFO* consists of:**

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial literature in psychology and related disciplines.

Issue. The monthly **PA** issues contain abstracts listed under 17 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the abstracts are arranged alphabetically by first author. Abstracts are numbered consecutively each year. The volume contains approximately 34,900 abstract records.

Indexes. An author and brief subject index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

Three-Year Cumulative Indexes To PA. Author and subject indexes for all entries in the **PA** journal for 1969-1971, 1972-1974, 1975-1977, 1978-1980, and 1981-1983.

PsycSCANS: Clinical Psychology, Developmental Psychology, and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology and applied psychology, respectively.

PsycSCANs: Psychoanalysis; and Applied Experimental & Engineering Psychology. Quarterly publications containing abstracts in the areas of psychoanalysis and applied experimental and engineering psychology, respectively.

PsycSCAN: LD/MR: A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

PsycBOOKS: Books & Chapters in Psychology. An annual five-volume compilation (ISSN 1044-1514) of information on books and chapters in psychology and related disciplines. Includes volumes on Experimental Psychology; Developmental, Personality, and Social Psychology; Professional Psychology; Educational and Health Psychology; and a separate volume containing Author, Subject, Publisher, and Book Title Indexes. A full bibliographic reference and information on content are included with each book or chapter record.

The Thesaurus of Psychological Index Terms: 6th edition. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of **PA**. The Thesaurus is divided into three sections: the *Relationship, Rotated Alphabetical Terms,* and *Clusters Sections.*

PsycINFO User Manual: 1987 edition. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed **PA** issues and indexes or by computer assisted search of the data base.

PASAR (PA Search and Retrieval). Retrospective search and retrieval service available through the PsycINFO office.

PsycINFO Database. Magnetic tapes of PsycINFO records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO Database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

KEY TO TEXT

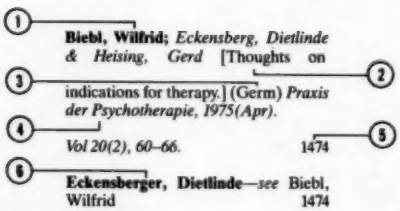

Examples are number coded to provide definition of their elements.

COVERAGE LIST

1. Journal title. Bold type identifies those journals that published articles appearing in this volume.
2. Publication year of first issue scanned. Asterisks within parentheses indicate that coverage by *Psychological Abstracts* began with the first issue of the publication.
3. Journal ISSN.
4. Journal frequency. The number of issues published per year. "IR" indicates that an irregular number of issues are published.
5. Publisher name.
6. Publisher address.

AUTHOR INDEX

1. Authors(s). As many as four authors are listed, if there are more than four, the fourth author is listed with the notation "et al."
2. Article title. All titles are in English. Brackets are used to indicate a translated title.
3. Language in which the article was published originally.
4. Source document title and bibliographic data.
5. Abstract referenced.
6. Co-author referenced to first author.

Language abbreviations used after translated titles are:

Afri	= Afrikaans	Flem	= Flemish	Japn	= Japanese	Slok	= Slovak
Alba	= Albanian	Fren	= French	Kore	= Korean	Span	= Spanish
Arab	= Arabic	Geor	= Georgian	Lith	= Lithuanian	Srcr	= Serbo-Croatian

Duth	= Dutch	Iran	= Iranian	Russ	= Russian		
Finn	= Finnish	Ital	= Italian	Sloe	= Slovene		

This Annual Author Index contains over 75,000 references to the authors and editors of approximately 34,900 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 1991 through December 1991. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from "Adams, Paul," even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Due to variation in the representation of names that exist in source documents, alternative locations should be consulted. As many as four authors may be listed per selection. If there are more than four, the fourth author is followed by "et al." Primary entries consist of author name(s), the title of the selection, the language of the selection (if foreign), a citation of the original source document, and the *Psychological Abstracts* abstract number under which the entry appeared. All secondary authors are cross-referenced to the primary entry, and the abstract number in *Psychological Abstracts* is printed as well.

At last... an easy and effective way to teach students how to search PsycINFO's databases online and on CD-ROM.

A step-by-step instructional guide, the **Student Workbook** leads the student through a series of readings and exercises designed to teach the basics of database structure and search strategy development. Ideal for use in introductory or research courses, **Search PsycINFO** offers a clear and concise approach to teaching this valuable research skill. The workbook is designed to be used with any search system following an introduction to the system.

The companion **Instructor Guide** includes suggested strategies for the exercises in the workbook and additional material for the instructor.

Together, the workbook and instructor guide give you the tools you need to add computerized search techniques to your course curriculum.

We've made teaching search techniques easy, so you can make learning simple and enjoyable.
